<p><u>Post-marketing Reports of Mortality</u> As with other IM antipsychotics, fatalities with the use of ziprasidone IM, generally in patients with multiple confounding risk factors, have been reported. Although a casual relationship has not been established, ziprasidone IM should be used with caution.</p> <p><u>Priapism</u> cases of priapism have been reported with antipsychotic use, including ziprasidone. This adverse reaction, as with other psychotropic drugs, did not appear to be dose-dependent and did not correlate with the duration of treatment.</p>	<p><u>Post-marketing Reports of Mortality</u> As with other IM antipsychotics, fatalities with the use of ziprasidone IM, generally in patients with multiple confounding risk factors, have been reported. Although a casual relationship has not been established, ziprasidone IM should be used with caution.</p>	<p>Special warnings and precautions for use</p>
