FLUMAZENIL KABI 0.1 MG/ML פלומאזניל קאבי 0.1 מ"ג/מ"ל

FLUMAZENIL 0.1 MG/ 1 ML

SOLUTION FOR INJECTION (I.V)

רישום חדש

רופא /ה, רוקח/ת נכבד

חברת ניאופרם (ישראל) בע"מ שמחה להודיעך על רישום התכשיר החדש:
FLUMAZENIL KABI 0.1 MG/ML

התוויה/ות כפי שאושרה/ו בתעודת הרישום של התכשיר :

Benzodiazepine antagonist for reversal of benzodiazepine anesthesia, as well as for patients with Benzodiazepine intoxication.

In a hospital setting:

In anaesthesiology to neutralise the sedative effects of benzodiazepines on the central nervous system in adults and children older than 1 year:

- reversal of sedative effect during general anaesthesia induced and maintained by benzodiazepines,
- reversal of conscious sedation induced by benzodiazepines in short operations with a diagnostic or therapeutic objective.

In intensive care to neutralise the sedative effects of benzodiazepines on the central nervous system and treat a coma of unknown aetiology, in adults and children (including newborns) if the semiology is compatible with the hypothesis of a benzodiazepine or related substance-induced coma:

- diagnosis and/or treatment of intentional or accidental benzodiazepine overdose,
- aetiological diagnosis of an unexplained coma in order to differentiate what is caused by a benzodiazepine from another cause (pharmacological or neurological).
- specific cancellation of the effects on the central nervous system by excessive benzodiazepine doses (re-establishment of spontaneous ventilation to avoid intubation or interrupt ventilatory assistance).

In an emergency situation or medical transport, in adults and children older than 6 years:

- reversal of benzodiazepine-induced conscious sedation in case of respiratory depression or apnoea.

העלון לרופא נשלח לפרסום במאגר התרופות שבאתר משרד הבריאות, וניתן לקבלו מודפס על ידי פניה לבעל הרישום ניאופרם (ישראל) בע"מ, בנין ניאופרם, רחוב השילוח 6 ת.ד. 7063 פתח תקווה 4917001, טלפון: 03-9373737, פקס: 03-9373716

בברכה,
עוז וולך
