DISCUSS

HAND-OVER

Patient Card:

- Provide the patient with the patient card and discuss the content regularly during each consultation **at least annually during treatment**
- Educate the patient to show this card to any doctor or healthcare professional involved in medical care (e.g. In case of an emergency)
- Remind the patient to contact their doctor in case of symptoms of **liver problems and infection** discussed in the Patient Card
- Discuss during each consultation the continued need for effective contraception during treatment

The patient has been informed about and understand the above mentioned risks and benefits associated with this treatment
